- USB and wireless rechargeable integrated lithium-ion battery
- RGB illuminated logo with battery level indication
- Optical sensor with 6,000 DPI

- Durable omron switches in left and right mouse buttons
- Polling rate of up to 1,000 Hz
- 7 programmable buttons
- Downloadable gaming software
- Onboard memory for gaming profiles

DUAL MODE CONNECTIVITY

WIRELESS FREEDOM

The SKILLER SGM3 allows maximum freedom of movement thanks to its 2.4 GHz wireless connection with provided USB nano receiver. The built-in lithium-ion battery ensures hours of gaming fun and can be charged during use in the middle of a gaming session, either wirelessly or connected to a USB cable.

WIRED OPERATION

If conventional connection is preferred, a textile braided cable with USB plug is also provided. Via Plug & Play, and with the on/off switch underneath the mouse, each type of connection can be easily selected.

WIRELESS CHARGING CAPABILITY

DISTINCTIVE VISUALS

When using in wireless mode, the SKILLER logo will illuminate and continuously flash red when the battery level has less than 10 % power remaining. The lithium-ion battery can be wireless recharged or also by a traditional USB cable. When charging via a cable, the mouse can remain in use while the battery recharges.

WIRELESS CHARGING

Simply place and align the charging area of the lithium-ion battery, located beneath the gaming mouse, on top of the charging coils of your wireless charger to begin recharging the SKILLER SGM3. Once the SKILLER SGM3 battery has acheived a charge of at least 90 % power, the SKILLER logo will illuminate green.

DOWNLOADABLE GAMING SOFTWARE

A high-performance gaming
software for full customization of speed, DPI levels,
button configurations and macros is available on the Sharkoon
website for download. The software can be used, with realtime updates transferring
to the SKILLER SGM3, occuring in both wired and wireless mode. The desired DPI
number and its lighting color of up to 16.8 millions colors can be individually selected
for each DPI step.

SPECIFICATIONS

General:
- Type: Dual Mode
- Wireless Communication: 2.4 GHz
- Max. DPI/CPI: 6,000
- Min. DPI/CPI: 600
- Sensor: Optical
- Chip: ATG4090
- Illumination: RGB
- Max. Polling Rate: 1,000 Hz
- Lift-Off Distance: 2 mm
- Frames Per Second: 8,000
- Inches Per Second: 150
- Max. Acceleration: 30 g
- Mouse Feet: 5, PTFE
- Color Versions: Black, White, Grey, Green

Button Properties:
- Number of Buttons: 7
- Programmable Buttons: 7
- Durable Omron Switches in Left and Right Mouse Buttons
- 4-Way Scroll Wheel
- Operating Life Cycles of Buttons: Min. 10 Million Clicks

DPI Properties:
- DPI Steps: 6,000; 4,800; 3,600; 2,400; 1,200; 600 *
- DPI Switch
- DPI Indicator

* DPI steps can be individually customized through the software.

Battery Properties:
- Type: Integrated Lithium-Ion
- Capacity: 930 mAh
- Continuous Operation: 40 hours
- Recharge Capability: Wireless / Cable (USB)
- Wireless Recharge Time: Device Dependant Cable (USB): 3 hours

Software Properties:
- Gaming Software
- Onboard Memory for Game Profiles

Cable and Connectors:
- Connector: USB / Wireless
- Gold-Plated USB Plug
- Textile Braided Cable
- Cable Length: 180 cm
